

advent
advisory group

Advent Advisory Group is a recognized industry leader in providing audit and measure certification services to health care and pharmaceutical management organizations nationwide. As a licensed compliance audit organization, our extensive experience with pharmacy organizations includes annual reviews of data, systems, and processes of over 20 Pharmacy Benefit Management (PBM) and Medication Therapy Management Program (MTMP) vendors as part of Advent's Medicare Data Validation (MDV) audit program which included audit of over 125 MDV submissions in 2016. Beyond our pharmacy organization and health plan experience, Advent has a reputation for its exceptional client services reflected in our annual client survey in which 100% of our MDV clients indicated "very" satisfied with their lead auditor and would wholly recommend us to others.

HealthcareData Company, LLC (HDC) is a national audit, data, research and health/human services management company based in Mechanicsburg, PA. Founded in 1989, HDC has provided services to clients in all 50 states as well as in Puerto Rico. HDC is diversified both in terms of the client types served and the projects undertaken. HDC's primary services include: HEDIS® Auditing and Reporting, CMS Part C and D Data Validation (DV), HHS Risk Adjustment Data Validation (RADV), CMS Independent Auditor Validation (IAV), CMS Compliance Program Effectiveness Audits (CPE) and Consulting. HDC has the manpower, expertise, and financial and technical resources required for ongoing audits. HDC's vast experience eliminates learning curves and creates efficiencies. Centralized processes, proprietary tools and a permanent headquarters allow HDC to conduct audits with increased accuracy and security. HDC can respond quickly to complex ad hoc requests as the organization includes PhDs, MBAs, MHAs, CPAs, RNs, CHCAs, programmers and coders. HDC has been providing validation services -- which include pharmacy systems, data and processes -- for over two decades.

For more information, please contact Paul Ackroyd, SVP Audit & Validation Services, at HealthcareData Company, LLC. at 717-458-0554 or via email at pjackroyd@HDCdata.com

Health Data Decisions (HDD) offers strategic data solutions for providers, health plans and care management vendors. We bring broad expertise in health data management and analytics, provider and health plan measurements, regulatory reporting, medical economics, risk adjustment, and systems strategy.

Health Data Decisions has partnered with URAC on measure development, validation and technical specifications since 2012. Our expert staff participated in the development of the Specialty Pharmacy ISCA, pharmacy measures and validation guidelines. We have worked closely with the other URAC Data Validation firms on submission requirements for other organizations and have experience in the full measure validation cycle. Contact us now to help accelerate and improve your URAC Validation Audit at urac@healthdatadecisions.com or call Michael Blumental, CEO at (781) 718 – 2118. More information on HDD is available at www.healthdatadecisions.com.

HealthSpective, a URAC® approved Data Validation vendor, is committed to surpassing the data validation standard protocol while developing a collaborative relationship with clients. From the measurement process to final data validation report, HealthSpective is there for its clients every step of the way. The HealthSpective Data Validation team has over 20 years of experience with Performance Measurement Production and Data Validation. In addition, they have worked directly in the healthcare industry as Project Managers and Analysts.

For more information, visit us at HealthSpective.net or Contact Larry McLaughlin, Principal at larry.mclaughlin@healthspective.net or (757)816-2892.

MetaStar is a leader in health care quality that provides a variety of auditing services including URAC Accreditation Validation Audits, HEDIS Compliance Audits™, Medicare Part C and Part D Data Validation Audits and Risk Adjusted Commercial Marketplace Initial Validation Audits. MetaStar's auditing team includes certified HEDIS auditors, expert pharmacy consultants, certified medical coders, registered nurses, physicians, and dedicated IT staff, many of which are Certified Professionals in Healthcare Quality (CPHQ). Based in Madison, Wisconsin, MetaStar's experience is grounded in specializing in the implementation and understanding of government and legislative initiatives through the Quality Innovation Network-Quality Improvement Organization (QIN-QIO) and External Quality Review (EQR) programs.
