Are you ready for URAC's
Health Network Accreditation?

urac®

Your organization clearly defines your network management structure, scope of services, geographic area(s) and population(s) served, and performance evaluation goals, methods and frequency.

CONFIRM organizational documents describe the network management program.

Your organization uses written provider agreements to protect the interest of all parties.

AUDIT executed contracts with participating providers.

Provider dispute resolution mechanisms are in place.

VERIFY that the provider manual is current and audit provider dispute resolution files.

Your organization actively manages your provider directory database(s) for accuracy.

CONFIRM organizational documents describe provider directory database management.

Your organization clearly defines its credentialing structure, scope of practitioners and facilities and performance evaluation goals, methods and frequency.

ENSURE organizational documents describe the credentialing program structure.

Your organization reviews and approves credentialing applications prior to designation as a participating health care practitioner.

REVIEW credentialing committee meeting minutes and audit a sample of credentialing files.
